- Stakeholder Engagement
- Team Leadership (25+)
- Agile SAFe
- Scrum
- Business Development
- Offshore/Onshore Delivery

Professional Experience

25+ years of enterprise leadership across global organizations

Enterprise Architect & Presales Solution Architect

Jun 2021 – Present

Wipro, Gothenburg

SANDVIK (MINING TOOLS MANUFACTURER) — AI-ENABLED CRM MODERNISATION & DELIVERY ACCELERATION

Architected an AI-augmented SDLC framework across the B2B Commerce CRM programme, institutionalising development standards that reduced configuration and delivery effort by an estimated 30–40%.

Established a governed LLM Agent Framework (Claude Code) for Salesforce development, embedding security guardrails and platform best practices to enable generative AI adoption at enterprise scale.

Designed and delivered purpose-built productivity tooling — including a Pattern Analysis Application and Mine Tracker — improving programme visibility and enabling real-time, data-driven decision-making.

Introduced effort-mapping tooling to quantify the cost and complexity of onboarding new product lines, directly improving estimation accuracy and strengthening business case modelling for senior leadership.

Drove end-to-end CRM delivery across LWC development, complex Flow configurations, Batch Apex data pipelines, and React–Salesforce JWT integrations, compressing time-to-market for critical B2B Commerce capabilities.

Implemented Salesforce B2B Commerce storefront with Product Catalogue, Custom Search, Product Tool Finder, Product Configurator, Order and Quote placements to ERP system Aurora.

GLOBAL ELECTRICAL DEVICES MANUFACTURER (FRANCE)

Led re-design of Salesforce project; implemented Agentic Architecture for Guided Opportunity Management.

Led team of 15 to reduce technical debt and improve scalability across existing systems and integrations.

HOSPITALITY GROUP / CHR. HANSEN (LIFE SCIENCES)

Architected enterprise solution for major merger; integrated Boomi between Sitecore, Salesforce CRM, and PMS (Maxxton).

Re-implemented B2B Commerce from CloudCraze to LWR-based Salesforce; established Wipro Europe's B2B Commerce practice.

As Pre-Sale Solution Architect, contributed to winning projects worth 2–15M SEK.

Directed teams of 10–15 across onshore/offshore models; managed stakeholder workshops and solution design.

Salesforce Project Lead & Solution Architect

Feb 2019 – May 2021

Fluido (Infosys), Stockholm & Gothenburg

Architected Salesforce Service Cloud and Marketing Cloud solutions for hospitality, pharmaceutical, life sciences, manufacturing, and automotive clients.

Designed AI solutions using Tableau CRM (Einstein Analytics) for a Gaming company — customer attrition and CLV analysis via Einstein Discovery.

Provided architecture advisory for Volvo Cars' Salesforce landscape; led Test Drive and Lead Management design within Agile SAFe.

Sr. Technical Manager

Edit with Lovable
